All Americans Can Serve

Every man, woman and child in this country, who wants to serve the country, can serve it and serve it in a very simple and effective way, says Secretary McAdoo.

That service is to lend your money to the government. Every 25 cents loaned to the government is a help at this time and practically every man, woman and child, by making some trifling sacrifice, some denial of a pleasure, or giving up some indulgence, can render the government that support.

Big Fire Averted

On Saturday afternoon what might have been a serious fire was nipped in the bud by the prompt action of members of the Carmel Fire Department. A coal-oil heater, unattended, was left on the porch in the rear of the butcher shop on Ocean Avenue, and the wind did the rest. A portion of the building is badly charred. Fifty dollars will cover the damage. Lee Dangerfield was burned about the face and arms.

Recorder's Notice

Owing to the amount of work in this office it is impossible for me to make a personal campaign, as I should like to do.

I have been in this office for two and one half years and feel that I know how the office should be conducted, and will gladly refer to any and all with whom I have had any dealings since I have been in the office as to the manner in which the office has been conducted and the work turned out; too much stress cannot be placed on the care required. I have been fortunate in having good deputies since I have been in the office, and it is my intention to have good deputies as long as I remain.

If elected I promise to keep the office in as good shape as it ever has been. Before you swap horses, be sure you are going to make an improvement.

Respectfully soliciting your support.

Cut in August Sugar Allowance

WHAT FOOD ADMINISTRATION ASKS YOU TO DO TO SAVE SUGAR

For the Household.

1. No household should have on hand more than two pounds of sugar at any one time for table and cooking use and not more than twenty-five pounds for canning.
2. Canning sugar must be kept separate from that purchased for household purposes so that the Food Administration inspectors may check up the quantity on hand, the amount of fruit put up and compare it with the original amount purchased. Any excess canning sugar left over MUST be returned to the grocer. It is not permitted to use this for table purposes.
3. Do all preserving without sugar wherever possible, adding it when used in the winter or at a time when sugar will be more plentiful.
4. Each person in a family is allowed two pounds of sugar per month, which means that not more than six lumps or three teaspoonsful may be used each day by any individual without exceeding the allowance. This two-pound allotment includes that used for cooking.

For Public Eating Houses.

1. All sugar bowls should be removed from the tables and individual sugar furnished each patron.
2. Not more than two half lumps or one teaspoonful of sugar should be served a customer at a meal. He may have his choice of lump or granulated sugar but not both.

San Francisco.—Stringent rules and regulations, as well as a system of checking all purchases of sugar, have been inaugurated by the United States Food Administration for California as a result of the big cut in the State's sugar allotment for August.

Beginning August 1st maximum allowance of sugar for household purposes is cut from three to two pounds per person per month and each public eating house will be allowed only two pounds of sugar for every ninety meals served.

California's allotment of sugar for August is approximately seven millions pounds less than the quantity provided for July and in order to make up this deficit it will be necessary for every person to rigidly conserve sugar. The entire burden has not been thrown upon the individual consumer, however, but the manufacturers of candy and sweets have had a great cut made in their allotment. All of this class of business is now allowed not in excess of one-half of the quantity of sugar used in 1917.

Many complaints have been received by the food administration that people are buying quantities of sugar ostensibly for canning purposes and then diverting it to table use. Because of these reports a checking system of all purchases, both for household and canning purposes has been inaugurated. Every grocer in the State is now compelled to keep a loose leaf record of the names and addresses of purchasers of sugar for all purposes and to mail these reports once a week to the local food administrator. These will be carefully compared and checked and where it is found that any person has exceeded his or her allowance they will be rigidly prosecuted.

All sugar purchased for canning is also being checked and a force of inspectors is now at work in San Francisco, going from house to house, and checking the quantity purchased with the amount of fruits preserved. If it is found that this sugar has been diverted to table or other use and that there cannot be produced sufficient preserved fruit to justify the amount of sugar used, then the purchaser will be vigorously prosecuted. Several violators have already been detected and will be tried shortly. This system of checking is now being extended throughout the State.

While public eating houses and homes which voluntarily went on a wheatless basis have been released from further observance of the non-wheat rule, it does not mean that all restrictions on the use of wheat and wheat products have been abolished.

"When the wheat crisis became acute," said acting Federal Food Commissioner Frederick O'Brien, "thousands of hotels, restaurants and private homes voluntarily signed a pledge in which they agreed to do entirely without wheat during the present crisis. These patriotic people banished everything made of wheat or wheat products from their homes and went on a no-wheat basis.

"When it was seen that because of the immense crop of wheat and other cereals the wheat restrictions could be slightly relaxed, Herbert Hoover naturally released those who had pledged the most from their obligations.

"Until there are further announcements the people are expected to continue to conform to the household rules which allow six pounds of wheat flour and wheat products per person per month. There is also no let up in the service of wheat and wheat products in restaurants. The piling up of the great surplus necessary to insure the allies and America sufficient quantities to take care of any unforeseen crisis, makes it imperative that other checks on unlimited wheat consumption be continued."

C. C. BAKER

CANDIDATE FOR DISTRICT ATTORNEY

The Candidate: C. C. Baker is a
graduate of the University of Ore-
gon. For six years he was City
Superintendent of Schools, and for
many months he was Second Asst.
Superintendent of Public Instruction
for the State of Oregon. In 1916
he graduated from the Law Depart-
ment of Stanford University with the
degree of Doctor of Jurisprudence,
and early in 1917 he located at
Salinas for the practice of law.
Within a short period of time he
acquired a county-wide reputation
as a competent lawyer, as an effec-
tive public speaker, and as an influ-
ential factor in the public affairs of
the county, including the various
war activities. It was due to recog-
nition of his general ability, together
with his excellent moral character,
that he was called into service as
Chief Clerk of the Local Exemption
Board, which position he held until
he responded to the popular appeal
that he become a candidate for the
office of District Attorney.

Mr. Baker comes before the peo-
ple of Monterey County with a
clean record, both as to his profes-
sional career and as to his private
life. He stands for the things most
worth while in the affairs of the
people, and the people who take
the most interest in the common
good are behind him in his cam-
paign. He has entered into no
combinations or alliances whatever,
and is pledged only in this—that, if
elected, he will administer the office
of District Attorney at all times in
the interest of all of the people of
Monterey County. Adv.

Should Be Elected

The Santa Cruz Tribune says:

Latest reports from Monterey county are that Hugh Osborn, former city attorney of this city, stands a very excellent chance of being elected district attorney of that county. If experience and ability count for anything with the tax paying voters of that county, they will vote solidly for Osborn. Much may be added to or cut from the tax rate through the office of the district attorney, and only men qualified should be elected. Adv.
