Member Harold Cash, the soft-spoken Southerner who used to visit here? The Pine Cone heard from him a few days ago. He is now attending the University of Virginia and will soon graduate. While in the Navy he was the bunkie of Gus Brelin, now visiting here.

Mrs. Mary H. Peale and her daughter, Miss Ruth, both of whom learned to love Carmel some years ago, have returned for a visit, and are guests at the Search home.

Mr and Mrs. Harold H. Newsom of Berkeley are here for a week's stay at El Monte Verde. Mrs. Newsom is a sister of Robert Ritchie, the author, and has visited Carmel before.

Great Guns! What a multitude of visitors in Carmel this week. They actually stood in line to get into the movies Saturday night, and there was a serpentine at the Postoffice for the Sunday noon mail. There was no crowding to enter the various churches Sunday morning, but they were all comfortably filled.

THE HIGH COST OF MUD

Power costs money to the farmer and to everyone else who must draw loads over our roads. A scientific investigation of the power required to move loads over various kinds of roads discloses some interesting results. To draw a load over a concrete road in an ordinary farm wagon required a pull of 15.5 pounds per ton of gross load. Over a road of asphaltic oil and screenings a load of 64.3 pounds good gravel road, 78.2 pounds; dry dirt road, 92 pounds; dirt with mud on top, but firm underneath, 118 pounds; fresh gravel, 263 pounds. No deep mud was available at the time to place the test was made, so that we can only guess what power would have been required.

The difference in power required between good roads and poor is power wasted. The loss is borne not alone by the farmer, but by all of us who carry farm products and who pay to have them hauled to us. When the roads are wet and heavy the farmer can haul but one-eighth of the load to town that he could haul if a first-rate road were available. The United States Office of Public Roads estimates the national excess bill for hauling because of poor roads at \$200,000,000 annually. Mud slows up the business of the entire nation. Dull seasons are the seasons of mud when the farmer cannot get to town with his produce, cannot transact business, so that the business of the town suffers and consequently the business of the nation. Mud costs lost time, for the farmer must spend hours instead of minutes upon the road, must make many trips instead of few. Our present need is to turn power and time now lost into productive channels. To do it we must improve our roads.—Los Angeles Times.

WEEKLY GREETING
The great prize to be won by men of ambition today is not money, but recognition as members of the aristocracy of service.—Charles Schwab.

PROGRESS

Increasing advertising, desire for more reading matter, a growing city, the coming new Coast Highway—all these things, and more—account for our larger paper this week, and regularly.

Fortunately, and thanks to generous support, we are able to handle the growing business.

With new machinery, modern type, and unbounded enthusiasm and optimism, and a great capacity for work, the Pine Cone will continue its endeavor to be an expression of Carmel's spiritual, material and artistic ideals.

The splendid performances given by the Carri and Garden Players, out on Guerrero street in the Mission, in San Francisco, have won the hearts of the audience by their "George B. Edwards in the Pacific Coast Musical Review" article concerning three one-act plays in 1918.

The whole program was a triumph for the Carri and Garden Players. How serene and sure his faith must be to obtain such perfection of detail and ensemble with such primitive means. San Francisco is fortunately unopinionated of this delicate jewel on her crossing table. I am modest enough to assume that my enthusiasm will not cause her to descend like an avalanche on the Carri and Garden Theatre, making it commercial and common. That would be too bad. For few are the idealists who can withstand the temptation of financial success.

NURSE'S NOTE SHOWS THE GRIT THAT WON WAR

Sorely Wounded Soldier Sees the Job Through.

Carter Glass, secretary of the treasury, copied the following note, among others, from the note book of a Red Cross nurse when he was in France:

"One boy I shall always remember, his right shoulder was practically all shot away and he had a big wound in his back and one in his left eye. But he sat straight up and wouldn't let anybody help him. He didn't say a word while they pulled off the tight clinging gauze from the red, raw, wet flesh that quivered in spite of him. When the first wound was finished all he said was: 'Do you think I could rest a minute, Doc, before you do the second one?'"

"Red, raw, wet flesh"—American flesh. It was not yellow. Think of that when you are asked to buy of the Victory Liberty Loan, ye who think ye have done enough.

WHOSE WAR WAS IT?

Was it Smith, the banker's war or Jones, the truckman's war? Was it Labor's war or was it Capital's war? Was it Autoocracy's war or was it Liberty's war? Whose war was it?

Figure it out. Then sacrifice everything and subscribe to the Victory Liberty Loan. For it was The People's War.

It isn't paid for. It must be paid for. The Victory Liberty Loan will pay for it. The people must buy because it was their war. The people are Smith and Jones, Labor and Capital.

If it wasn't the People's war, it wasn't anybody's war. So don't say "let the banks do it." It was not the bank's war. You might as well say it was Jones' war—let Jones buy the Victory Loan. He would have as much chance to subscribe five or six billion as Smith would.

The man who says "let the banks do it," is yellow. There are about 1,000,000 American lads over in Europe who are sticking it through. They are not saying let somebody else do it.

It's the last loan. Play square.

"The scope of thrift is limitless."—Thomas A. Edison.

The war will not be over until the United States government has honorably met every commitment made in order to win the war.—Carter Glass, Secretary of the Treasury.

Summer Program

Not in the ten years of existence of our Forest Theatre, until this year, have interested known in sufficient time, for advertising and other reasons, what the summer plays were to be.

Garnet Holme, producer manager this year, man wide experience in the drama believes in an early start.

Last week the Pine Cone announced the summer program. "Robin Hood" "Sherwood," the year's production, is by Alfred No. Those who recall the opera the same name, with its wealth of scenic and musical beauty will appreciate what can be done with this play on Forest Theatre stage and surroundings.

Mrs. E. Chase, a California lady, is the author of "Princess Happy Heart," the summer children's play. It is full of joy and optimism, and its splendid scenic and light effects, will make a big hit.

The annual Arts and Crafts play is "Prunella." Many have seen this old-fashioned play, but it is one of the stage offerings that can be witnessed time and again, with time with a new delight, not so long ago that Marie Clark starred in this for the movies.

The Western Drama Society has under consideration a number of plays, one of which will be put on early in August.

On July 18 and 19 Jeanne Hoagland and The Woodland Dancers are to give their annual exhibition.

Write your friends about summer plays—or send them a copy of the Pine Cone.
